At a meeting of first course students held Feb. 14<sup>th</sup> 1872, the following preamble and resolutions were adopted; viz.

We the undersigned, First course students and others of the Kuhnemann Medical College of Phila., at a meeting of ourselves, convened by mutual consent, have adopted the following preamble and resolutions;

Whereas. It appears that Dr. C. M. Chandler, late a Professor in the Faculty of Kuhnemann Medical College of Phila., was invited to accept, and subsequently elected, to the chair of Practice of Medicine &c, without any solicitation on his part; and

Whereas. It further appears, that, in order to accept said professorship, he was required to move to Phila., and, by so doing, give up the lucrative practice of Homoeopathy, which he had labored many years to establish; and

Whereas. His professional record was open to the examination of all, and if the same had been characterized by anything objectionable, such ought, in all fairness, to have been ascertained before his change of residence was

consummated; and

Whereas From his precepts to us in his lectures at the College, and from his practice since his residence in the city, there has appeared, to the best of our knowledge and belief, nothing, which was inconsistent with the tenets, or derogatory to the cause of true Homoeopathy; and

Whereas We believe, that by the over-hasty action of the whole class during the early part of the present session, injustice was done to Prof. Haeseler; inasmuch as he had been twice acquitted of wrong doing, by investigations held; first, by the Faculty, and afterwards by the Faculty and Board of Curators in joint meeting convened; and

Whereas We believe that it was the aforesaid hasty and uncalled-for action of the class - though not prompted by any personal unkindness toward Prof. Haeseler, but rather by an impulse of mistaken zeal - which induced him, reluctantly, to resign; and

Whereas It is our desire to correct our record, in so far as we were

implicated in the action aforesaid,  
before leaving the College and this city;  
and to do all we can towards righting  
the wrong done against Prof. Haeseler;  
therefore,

Resolved. That we the undersigned,  
first-course students of Hahn Med  
College of Phila., for the reasons above  
stated, and in order to retain the  
services of one, who we believe has the  
welfare of Homoeopathy, and the prosperity  
of this College very earnestly at heart,  
do hereby appeal to the Faculty to  
reinstall Prof. Haeseler in the chair  
to which he was elected, believing as  
we do, that his resignation of the  
professorship was occasioned by  
illiberal, unjustifiable, and coercive  
measures; and that, in the event of  
Prof. Haeseler's reinstatement, we will  
cheerfully return to this College for our  
second term of lectures.

Resolved. That, in order not to make  
this transaction appear meretricious,  
rebellious, or in any wise disorderly,  
we have selected a place of meeting  
for these deliberations, outside of the  
College building, and that we make  
known the result of this meeting, to

the College authorities only at the close of the session, at which time we claim that any expression, as regards our future intentions, is our undisputed right as free citizens of a free country.

Resolved. That we do not wish to be understood as presuming to dictate to, or finding fault with, or attributing improper motive to the Faculty, either collectively, or to its individual members, as we truly believe that everything that was done, in relation to this subject, either on the part of the Faculty or on that of the class, was with the best intentions, and under the sincere conviction of promoting the cause of Homoeopathy.

Resolved. That a copy of these preamble and resolutions be sent to the President of the College, to the Dean and Registrar of the Faculty, and to the Secretary of the Board of Curators.

TO THE FRIENDS OF HOMŒOPATHY,  
ON BEHALF OF  
**THE HOMŒOPATHIC HOSPITAL.**

We ask you to support our Hospital. Give us aid, liberal, material aid, in the work of extending the benefits of our system. This system has proved itself a great blessing to you and your families; help us to carry this blessing to the suffering and friendless, to the poor and destitute. Their condition demands the active sympathy of all, and especially of those to whom a divine providence has given a larger store of this world's goods. We ask this of you in the name of humanity, and for the sake of the Homœopathic cause.

Our Hospital was established in connection with the Homœopathic College in Filbert street, for the benefit of sick and wounded soldiers. Its services, proffered to the Government, were declined. Our efforts, to sustain it for the benefit of discharged soldiers, proved a failure. Our aim is now to make it a general Hospital for the benefit of all the sick and suffering who may apply to us for help, male or female, whether private citizens or discharged soldiers; whether able to pay a portion of their board, or altogether dependent upon charity.

The success of this effort rests upon the friends of the Homœopathic cause. They can secure it if they will. We have a suitable building, furnished with beds and bedding, and all needful appliances. We are ready and anxious to give our time, labor and experience to this work; and we look to you to furnish us with the means necessary to carry it on. A beginning has been made, which needs but a united and hearty effort on the part of those who are friendly to the object, to eventuate in the establishment of an Institution, which shall live and grow to be a blessing to suffering humanity, both in its direct action, and also in the invaluable means which it will afford for the promotion and development of our science.

To the Physician, it will offer more abundant opportunity of extending his knowledge and experience, and to the Medical Student, of observing the manifold forms of disease, and noting the practical working of remedial agents. And through them it will re-act most beneficially upon society, by giving them greater ability and power in the performance of their use, and making their efforts more sure and certain of success in the varied, difficult and complicated cases of disease, which may be placed in their hands.

Help us then, friends of Homœopathy, to do this good work. Send your contributions in Hospital Stores, to the Matron, Mrs. Margaret M. Whan, at the Hospital, 1118 Cuthbert street. In Money, to the Treasurer, John M. Kennedy, Esq., 1423 Arch street, or to either of the undersigned Physicians and Surgeons of the Institution. They will be faithfully reported, and satisfactorily accounted for. And remember, that, "*It is more blessed to give than to receive.*"
